

Weave India is a Handloom brand with various handwoven products like ladies kurti, gents kurta, mekhela chador, cushion cover, stoles, etc. There are many handloom clusters in Assam and Weave India deals with those cluster weavers. Till now we have weavers from Jagiroad cluster, Bijaynagar cluster, Sipajhar cluster and Goalpara Cluster.

COTTON KURTI

The most wearable product of women is kurti which is required in everyday life, and pure cotton handloom kurtis are rarely available in the market. Hence, Weave India has given more emphasis on this product. The women weavers of various clusters are trained and only after that, these cotton kurtis with the traditional designs are weaved according to the color trends. These kurtis are the result of hard work and patience of the designer Nilufar Ahmed and the women weaves.
