

AmbyGOLD Manorama Foods

MANORAMA FOODS AND AGROTECH

AmbyGold Manorama Foods is a community building 'Farm to Fork' concept with a vision to create a sustainable ecosystem by commercializing the indigenous naturally value added food products globally. Thus we are promoting the locally grown superfoods and encouraging the farmers to form the sustainable ecosystem. On the other hand our mission is to create a healthy society by eating healthy and a scientific diet. We are addressing the need of superfoods in our regular meals.

Our Mission is to produce high quality, great tasting and healthy superfoods and to offer our customers innovative, compromise-free alternative food products with additional health benefits.

Our Vision is to join the leaders in the health movement and we aspire to transform food industry into a healthy, transparent and sustainable socially-responsible business

AMBYGOLD RED RICE

AmbyGOLD red rice is grown in the flood affected Brahmaputra valleys of Assam. Where flood does not allow any crop to grow in this region, this particular paddy has a unique tolerance level and grows even rapidly with rising water level. Hence we encourage flood affected farmers to grow this extremely healthy rice - which is not only loaded with more fibers, vitamins, minerals and antioxidants but it has anthocyanin -an anti cancerous element. This is absolutely organic and gluten free.

₹ 149/- Per Kg

AMBYGOLD BROWN RICE

It is a local and natural produce variety from the paddy fields of Assam. Natural method (mechanism) has been opted to protect the rice to keep away the insects rather than using chemicals and pesticides. It is tasty and gets cooked quickly that any other brown rice available.

₹ 99/- Per Kg

AMBYGOLD BLACK RICE

It's high in fibre with high levels of antioxidants having superior nutritional value. AmbyGold Black rice is premium Manipuri Black rice, 100% natural and unprocessed.

₹ 169/- Per Kg
