

IRIS

Iris has emancipated after a decade long research and planning by two art enthusiasts whose whole and sole motive behind the initiative is to bring different art forms and craftsmanship that makes India a connoisseur of vivid crafts till today to the Urban populace especially in the North Eastern part of India. The rich Indian traditional art and craft forms that take birth from the humble hands of the artisans who through generations had endured various hardships to keep alive their heritage have constantly encouraged and inspired the team- Iris to form a platform where-in these magnificent stories can be presented. The intent behind bringing up the store is to help the sons of the soil by providing fair pricing for their products, ensuring direct B2B trade so that the number of middle-man involved is minimized there-by ensuring a transparent business deal along with a fair remuneration of their artwork.
